Preparation

- Preparation is the key to success in learning
- Your modules are designed so that you receive materials in advance of the lecture, and this is for you to familiarise yourself with the subject before the lecturer arrives

SCOPÉ

Learning vs Teaching

- Modules will be presented and assessed in different ways
- The first thing you will notice is that your tutor respects your existing knowledge and will endeavour to build upon your professional experience
- The emphasis is upon your 'learning' rather than upon "teaching"

UNIVERSITY OF WOLVERHAMPTON 英國胡佛漢頓大學

CityU 香港城市大學 City University of Hong Kong

SCOPE School of Continuing and Professional Education 專業進修學院

Learning vs Teaching

- This means that you will be expected to **discuss** rather than listen, **do** rather than receive information
- In this way you **learn** more than simply listening and taking notes
- You may not be used to this, but at university level it is more effective
