***Message from Professor John Latham  
Vice-Chancellor & CEO, Coventry University  
Extraordinary Professor, Stellenbosch University***

It is with great pleasure that I offer my warm and sincere congratulations to you all, both personally and on behalf of Coventry University. I know that you have worked very hard on your programme but I am sure you will now agree that it has been worthwhile. We are all proud of what you have achieved.

The City University of Hong Kong and Coventry University UK, enjoy a very special relationship because of our similar histories, and our shared commitment to programmes that provide an academic challenge as well as preparation for a successful career. This reflects the maturity of our partnership and our desire to work together to provide higher education opportunities with a true international flavour. Students are studying for these programmes both in Coventry and in Hong Kong, and at many other centres around the world.

The success of our partnership is due to the many staff at City University and at Coventry University who have supported the programme but, most of all, it is due to you, the students. You have made our international partnership work and given it real meaning.

Please keep in touch with us through FOCUS, our alumni society. We look forward to hearing about your achievements in the future and, perhaps, welcoming you to Coventry University when you undertake your Masters programme.

On behalf of my colleagues at Coventry University, I send best wishes to you all and look forward to your future success

## *Coventry University*

Coventry University is a forward-looking, modern University with a proud tradition as a provider of high quality education and a focus for multidisciplinary research. We are an established academic presence regionally, nationally and internationally, and take great care in providing a supportive environment for all our students.

Coventry University has a long tradition as a provider of education. It can trace its roots as far back as Coventry College of Design in 1843. It was in 1970 that Coventry College of Art amalgamated with Lanchester College of Technology and Rugby College of Engineering Technology. The resulting institution was called Lanchester Polytechnic: In 1987 the name changed to Coventry Polytechnic and in 1992 we adopted the title Coventry University. However, the Lanchester name has been preserved in the title of our art gallery, the Lanchester Gallery, as well as in the Lanchester Library and our Lanchester Restaurant.

### *Our Identity*

The phoenix was a mythical bird with splendid plumage, reputed to live in the Arabian Desert. Fabled to be the only one of its kind, it lived for five or six centuries, after which it burned itself to death on a funeral pyre of aromatic twigs ignited by the sun and fanned by its own wings. It rose from the ashes with renewed youth to live through another cycle.

Such a symbol is fitting reminder of the way in which the City of Coventry rebuilt itself after suffering devastation during the Second World War. It is a symbol with which Coventry University is proud to be associated and to have adopted as its own.

### *Building Names*

Coventry University has adopted a policy of naming its buildings after people who had a significant local impact. Around the campus, you will find Ellen Terry (the greatest English actress of the nineteenth century), George Eliot (pseudonym of Mary Ann Evans, nineteenth century novelist, critic and poet), Graham Sutherland (painter and print-maker), Richard Crossman (political journalist and British Labour politician) and Sir Frank Whittle (inventor and pioneer of the jet engine and supersonic flight).

## ***Explanation of Academic Dress of Coventry University***

Since the Middle Ages, universities have prescribed distinctive systems of academic dress for their members. In accordance with tradition, the academic dress of the Coventry University consists of a cap, a gown, and a hood. The hood (which is now the distinctive mark of a university-level graduate) is medieval in origin, and was originally functional. Modern academic hoods, however, are intended to indicate the wearer's degree and awarding institution.

Although the cap and gown can (in theory) be worn upon any occasion, the wearing of hoods is usually reserved for solemn or festive occasions such as degree ceremonies.

### ***The dress for the Bachelor's Degree***

Blue and Gold are Coventry University's adopted colours. They feature strongly in its academic dress. A black traditional gown is worn featuring a full hood, with gold art silk outer which is part-lined in blue silk embossed with the phoenix. A black cloth mortarboard completes the dress.

## *Introduction of CityU SCOPE*

The School of Continuing and Professional Education of City University of Hong Kong (CityU SCOPE) has been a pioneer and major provider of quality professional and lifelong education in Hong Kong. CityU SCOPE provides lifelong education for professional practice, knowledge enhancement and self-development and to respond to emerging needs in the industry due to social and technological change. Those who are keen to upgrade and improve themselves, regardless of their learning needs, will find that CityU SCOPE's quality programmes facilitate their progression along the qualifications ladder.

Since 1992, the School has developed partnerships with non-local universities to develop internationally-competitive programmes to nurture all-rounded graduates through well-articulated curriculum which places strong emphasis on professional competence. Up to now, we have nurtured over 29,000 bachelor degree graduates, and many of them are now making significant contributions to various sectors of society.

This year, CityU SCOPE continues to offer a range of postgraduate and undergraduate programmes leading to non-local awards in various disciplines. To date, all seven 3-year non-local degree programmes and seventeen non-local top-up degree programmes offered by SCOPE have been successfully accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ). The accredited status of these programmes has guaranteed both the programme quality and the eligibility of our full-time students to apply for government grants and loans and to participate in appropriate government internship and scholarship schemes. Graduates of these programmes are also recognized by the Government of the HKSAR for employment.

We pride ourselves on the diversity of our programmes and the standard of our graduates. With the concerted efforts of the dedicated and experienced teaching team of SCOPE, together with our overseas partners, we will continue to provide you with an engaging and rewarding learning experience.
