

# “I control the camera - Manual Mode Landscape Photographing Skills” Workshop

## 影相我話事 - 風景手動模式拍攝技巧工作坊

### TARGET PARTICIPANTS

The workshop is suitable for beginners who loves to take photos of landscapes. Students of full-time top-up degree programmes, 3-year full degree programmes and full-time advanced diploma programmes are welcome to join the workshop.

### WORKSHOP OBJECTIVES

- To understand the basic concepts of exposure (曝光組合) and composition (構圖)
- To familiar with the use of aperture-priority, shutter-priority and manual mode
- To learn the skills of shooting in manual mode
- To learn the basic skills of landscape and wild-life animal photographing skills

### TRAINER

#### MR. STEPHEN SUN

Lecturer, Social & Human Sciences Section, CityU SCOPE

*Starting from 2013, Stephen attended different photographing courses and professional photographing seminars to equip himself with photographing knowledge and skills. He is seriously to follow the unique photographing style of Bryan F. Peterson. Now, he has built up his own photographing style as an amateur photographer. He loves to take photos of landscape and wild life animal.*
