

## HKPC Launches “BIZ Expands Easy (BEE)” Funding Portal with BEE ePass Service

HKPC earlier held a ceremony to launch the new “BIZ Expands Easy (BEE)” portal empowered with BEE ePass service. The new initiatives provide an one-stop channel for Government funding applications that systematises and optimises the application process, unlocking boundless opportunities for industries.

BEE is a one-stop integrated platform consolidating information of various Government funding schemes covering digitalisation & cyber security, smart & green living, SME & startup support, enabling different industry sectors to explore funding resources and support for business development. Through the BEE ePass service, enterprises or organisations can log

in, view and manage those government funding schemes which HKPC serves as the secretariat, and process different applications simultaneously with a single user account and password. This function also enables users to auto pre-fill registered company information, saving the time of repeatedly filling in the application forms from scratch.
