Price.com.hk

Web Developer (1-year Internship)

Your role with us involves:

➢ Build and maintain the eCommerce website on state-of-the-art architecture
➢ Collaborate with UXUI, Product Management, and QA teams to deliver the best-in-class e-commerce experience on both web and mobile platforms
➢ Utilize the latest and greatest technology stack, frameworks, libraries, and development tools to deliver quality products
➢ Follow software development best practices to analyze, code, test, document, deploy, and update in product development cycle

Requirement:
As an employer, our role is to empower you by bringing your true talents and best self to this dynamic digital world and people we serve. We welcome individuals from all backgrounds, ideally with skills and traits as below:

➢ Proactive, pragmatic, analytical and detail-oriented
➢ Higher diploma/certificate or above in Computer Science or other related disciplines
➢ Hands-on experience in SDLC and web development, including but not limited to these skillsets: Java/Typescript, ReactJS, PHP, NodeJS, HTML5, CSS3
➢ Experience in Restful API, Responsive Web Design, MySQL is preferred
➢ Familiar with agile development methodologies, and project management
➢ Good interpersonal, organizing and communication skills
➢ Well-organized, self-motivated and able to work in a fast-paced environment
➢ Fluent in written and spoken Cantonese and English
