Edinburgh Napier University

Edinburgh Napier University is one of CityU SCOPE's largest UK partners of Higher Education in Hong Kong. Edinburgh Napier delivers the skills and experience that matter. It combines professional know-how with an academic approach and work-related learning to help its students succeed beyond university. Meanwhile, its research shapes the world around us, improving lives in Scotland and across the globe.

Edinburgh Napier is one of the largest universities in Scotland, with over 21,000 students. It is split into five Schools: The Business School, School of Arts & Creative Industries; School of Computing, Engineering & the Built Environment; School of Applied Sciences; and School of Health & Social Care. The University has approximately 1,500 staff and offers around 300 undergraduate and postgraduate programmes, as well as an extensive range of short courses for industry and commerce. Many of its short courses have been tailored to fit international clients' needs and are delivered abroad.

The Business School

The Business School is one of the largest and modern Business Schools in Scotland with more than 8,500 students. It offers a wide range of Business, Finance, Hospitality and Tourism courses at undergraduate and postgraduate levels. The Business School has been working with SCOPE at City University of Hong Kong since 1997, providing learning opportunities for students in Hong Kong to articulate from their associate degree and diploma programmes onto a number of our honours degree and degree programmes. The School is the home to four subject groups, namely: Management; Accounting, Finance & Law; Tourism & Languages, and Marketing. The Marketing subject group offers Marketing undergraduate and postgraduate degrees in the UK and Hong Kong. Our degrees focus on Marketing Management at both the strategic and tactical levels.

ENU's Business School is accredited by the Association to Advance Collegiate School of Business (AACSB).

Edinburgh Napier University Scholarship

Scholarships are offered to students on this programme, with outstanding prior academic achievements.

Overseas Study Opportunity

In Trimester 2 students on this programme will have a valuable opportunity to study in the UK campus of Edinburgh Napier University for a whole trimester. Bursaries may be available for eligible students.

Summer International Festivals in Edinburgh

Students will have an opportunity to visit to Scotland in the summer for two weeks. They will have the opportunity to learn about Scottish culture and participate in the Edinburgh International Festival. Bursaries may be available for eligible students.

Words from...

Academic Staff

“Edinburgh Napier University is one of the top modern professional universities in the UK and in Hong Kong for Business (including Marketing, Finance and Accounting). Since 2004, the Business School has been delivering a full-time top-up degree in the marketing field to ordinary and honours levels with CityU. Since 2010, we have been offering the same BA/BA (Honours) Marketing Management degree as in the UK. This includes several exciting modules in marketing and one in management. A highlight for many students is the opportunity in the Live Project module to work on a real-life marketing problem in Hong Kong with a local organisation. With our UK version of this programme preparing students for excellent careers in marketing management, brand management, advertising, market research and public relations, we anticipate similar prospects for our Hong Kong students. Some of our graduates have been successfully working for local and international organisations, while others are successful entrepreneurs.

With the number of graduates from BA and BA (Hons) Marketing Management and the previous marketing degree set shortly to reach over 2,000, this is one of SCOPE's most popular top-up courses. Edinburgh Napier staff have enjoyed teaching our Hong Kong undergraduates, whom we have found to be hard-working, well-motivated and, best of all, successful! Failure in previous years has been extremely rare with most students gaining an honours degree and the rest electing to leave with an ordinary degree. This excellent record shows how students have managed to combine their academic study of the theory of marketing with the ability to apply it to practical situations.

We look forward to working with Hong Kong students and our experienced SCOPE colleagues again to make the BAMB degree as successful as always. What's more, as one of the top universities in the UK for the employability of its graduates, we expect Hong Kong graduates from our BAMB degrees to be just as successful.”

The Business School, Edinburgh Napier University

Edinburgh Napier University (ENU) is one of CityU SCOPE's largest UK partners of Higher Education in Hong Kong. The ENU Business School is one of the largest and modern Business Schools in Scotland with more than 8,500 students. It offers Marketing degrees in the UK and Hong Kong.

BA/BA (Hons) Marketing Management (Part-time) was first launched in 2013. This Marketing Management programme is differentiated from all other Marketing programmes offered in Hong Kong. First, it emphasizes both theory and practice in Marketing. The BAMB programme aims to develop student's interest in and knowledge and understanding of the principles of marketing, brand management, market research, digital marketing, marketing communications, international marketing, strategic management, and marketing management in practice.

This programme will provide students with opportunities to develop and demonstrate your knowledge of marketing, strategic management, and digital marketing in order to develop their practical, critical and analytical skills and attribute. Second, most programme modules, subject to ENU guidelines, provide a combination of continuous (coursework) and supervised (exam or equivalent) assessments, as this allows students with different learning approaches to participate in a range of assessment types. Generally, coursework promotes both independent learning and employability skills such as group work and research skills. The dissertation will allow you the student to demonstrate writing, thinking and analytical skills to a high level. Third, whilst this programme is based closely on the BAMB taught in Edinburgh, the real-life scenarios, examples, and case studies used in the learning in each module allow the Hong Kong-based student to understand and apply marketing and digital media theories in Hong Kong or Asian contexts. Fourth, The BAMB programme prepares students for a wide spectrum of careers in marketing management, brand management, advertising, market research, and public relations. Finally, the duration for studying is relatively short. The BA Marketing Management (Part-Time) consists of 100 credits and will be delivered in part-time mode for three semesters in one year. It comprises five 20-credit modules for BA Marketing Management (Part-Time).

The BA (Hons) Marketing Management (Part-Time) consists of 220 credits

and will be delivered in part-time mode for five semesters. It comprises nine 20-credit modules and one 40-credit Dissertation modules. The disruptive innovation and digital transformation in our society have just changed the traditional marketing practice, the jobs have become more demanding. The ENU-SCOPE BAMB programme is among the best part time marketing programme that can help further your career goals.

Graduates

Some people may state that “To develop a career in marketing, it is not necessary to study marketing” or “the knowledge that the marketers learn in the university is not practical”. I think these opinions are highly inaccurate and I totally disagree with such misconception.

Whether you study BBA, MBA, or a marketing degree, what you learn is a system of mindset for making better decisions. There is no right or wrong way in this world. Whenever you encounter difficulties, there is no one to tell you the solutions and the next steps that you can take. You are required to have strong critical and strategic thinking skills. All the knowledge you have learned is like a map. You need to rely on this map to find the right direction in life. If you decide to be a business leader, you need to be a good learner first. If your aspiration in business leadership is marketing-related, then it is paramount that your map of knowledge and competence and mindset include strong marketing underpinning, hence my decision to enroll on this marketing degree programme.

So, what did I gain from a degree in Marketing?

It gives you a great learning environment to enhance yourself, for example, analyzing the business environment, evaluating the market industry, and exploring market insights.

If you want to have a deeper understanding on Marketing or be a marketer or desire to be promoted to a higher position, this degree is definitely a good choice.

Mr Ben Chan
Graduate (Marketing Manager)

The marketing management curriculum has provided the knowledge and confidence I once lacked, and it has already helped propel my career forward. After completing this program, I have attained a position of Business Development Officer at Mattex Asia development Company Limited, which is a technology development company under Asia Allied Infrastructure Group. I am leveraging the skills from my studies to help shape my company's branding; and I am now actively organising our campaign to drive the awareness and adoption of our products.

I would want to give a special thanks to all programme professors for their guidance and support throughout my studies. I couldn't done these great works without been through this program.

Organisation

“I was honoured to work with students from Edinburgh Napier University's BA Hons Marketing Management course in Hong Kong on a live project, which involves students working on a real life marketing issue and coming up with solutions. I'm originally from Edinburgh so I know Edinburgh Napier University well - the University's standards and qualifications are really good quality, which is one of the reasons I agreed to get involved. I am very glad that I did. I was so impressed with the students ideas and professionalism during the project that I hired two of the University's students as interns with the aim to hire at least one of them full time in the future.”(She later did)
